Graduating May 2025

Guru Gobind Singh Indraprastha University, New Delhi, IN

9.31 CGPA

Dr. Akhilesh Das Gupta Institute of technology and management

Relevant coursework: Data Structure and Algorithm, Object oriented programming , DBMS

## TECHNICAL SKILLS

**Programming:** Java, C++, Javascript, Kotlin, Javascript , Express js, Node js

**Database:** mongoDB, MySql, Cloud Firestore, Firebase RTDB

**Software:** Firebase(BaaS), Figma, Postman, Git/Github

## EXPERIENCE

### Cars Karkhana, New Delhi, IN: Android Development Intern

Nov 2023 – Jan 2023

- Conceptualized, Designed, and Deployed: Solely led the end-to-end development of a Cars Inspection App.
- User-Centric Interface: Engineered an intuitive design, prioritizing efficiency for streamlined inspections.
- Real-time Updates and Offline Functionality: Implemented features for seamless user experience.
- Performance Optimization: Ensured swift loading times and minimal resource usage.

### Glazonoid, New Delhi, IN: Android Development Intern

May 2023 – Oct 2023

- Developed a dynamic Android application utilizing Java and Firebase as the backend technology stack. The project also incorporated a specialized module integrating machine learning for image recognition, enabling the app to identify and classify different types of mirrors.
- Led the end-to-end development of the Android application, including designing and implementing the user interface (UI) and user experience (UX) components.

### Monkhood Living, New Delhi, IN: Android Development Intern

Mar 2023 – May 2023

- During my internship, I had the opportunity to work closely with the Android development team on an innovative application aimed at simplifying the process of finding and renting PG accommodations and flats for college students.
- Integrated third-party APIs for seamless integration of Google Maps and location services, enhancing the accuracy and convenience of property listings.

### Glazonoid Automates, New Delhi, IN: Android Development Intern

Jan 2023 – Mar 2023

- Advanced Search Functionality: Implemented a robust search system with auto-suggestions, enhancing user experience.
- Developed and implemented an Automated Invoice Generator for mirror purchases, seamlessly integrated into the team's workflow. Directly used by the team for generating final invoices, eliminating manual efforts and enhancing overall efficiency.
